

RoHS

Figure 1 is a line graph showing Burst pressure (MPa) on the Y-axis versus Operating temperature (°C) on the X-axis. The Y-axis ranges from 0 to 9.0 MPa in increments of 2.0. The X-axis ranges from -20 to 60 °C in increments of 20. There are two main curves representing different product types:

- Upper Curve (TS0425, TS0604):** This curve starts at approximately 6.8 MPa at -20 °C and decreases to about 2.5 MPa at 60 °C.
- Lower Curve (Other than TS0425, TS0604):** This curve starts at approximately 4.5 MPa at -20 °C and decreases to about 1.5 MPa at 60 °C.

Two horizontal lines indicate maximum operating pressures:

- A horizontal line at 1.0 MPa is labeled "Max. operating pressure (For other than TS0425, TS0604)".
- A horizontal line at 1.5 MPa is labeled "Max. operating pressure (TS0425, TS0604)".

The graph shows that burst pressure decreases as operating temperature increases for both product types. The TS0425 and TS0604 products have a higher burst pressure than other products across the entire temperature range shown.

Precautions

Caution

1. Compatible with water due to a change in materials. Compatible fluid types are printed on the tube body for differentiation, so please be sure to check this. Note) If using the previous TS/TISA series with "water", the tube may shrink and cause air leakage or the tube may fall out.
2. Please exercise caution when using this item in a clean room. There is a possibility of plasticizer and other materials precipitating on the tube surface and detracting from the cleanliness level of the room.
3. The value of the minimum bending radius is measured at the temperature of 20°C as shown in the figure below.

Bend the tube into U-form at a temperature of 20°C. Fix one end and close loop gradually. Measure 2R when the tube breaks or is crushed.

Made to Order

● — 20 m roll □ — 100 m roll (TS1612 is reel.)

How to Order

TS0604 **W** - **100**

Tubing model

Length per roll

Symbol	Length
20	20 m roll
100	100 m roll (Black and white only)

Color

Symbol	Color
B	Black
W	White
R	Red
BU	Blue
Y	Yellow
G	Green

(Please contact SMC for specifications in detail, dimensions, delivery and specifications other than those mentioned above.)

100 m reel

Metric size and Inch size except $\varnothing 16$: Suffix “-X3” to the end of part number. Ex.) TS0425R-100-X3

Longer length reel

Metric size: Suffix “-X3” to the end of part number. Ex.) TS0425G-500-X3

20 m roll

Inch size: Suffix "-X4" to the end of part number. Ex.) TISA01BU-20-X4
