

# LINEAR DIAPHRAGM LIQUID PUMP LMF SERIES

#### **MODELS**

LMF3 115/230 V AC LMF3 12/24 V AC LMF4 115/230 V AC LMF4 12/24 V AC

### **FEATURES**

- High Lifetime
- Low Sound
- Self Priming

#### **TYPICAL APPLICATIONS**

- Industrial Applications
- Medical Devices
- Laboratory and Analysis
- Dosing Applications
- HVAC
- Fuel Cells

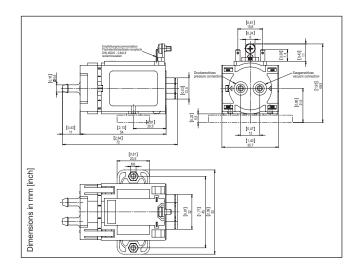

by Gardner Denver

## Linear Diaphragm Liquid Pump LMF3 115/230 V AC

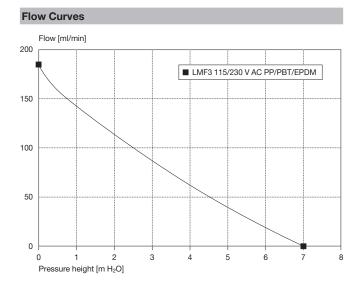

| Flow            | 185 ml/min |
|-----------------|------------|
| Pressure height | 7 m H₂O    |
| Suction height  | 2 m H₂O    |

| Hydraulic Data                            |                               |
|---|-------------------------------|
| Description                               | LMF3 115/230 V AC PP/PBT/EPDM |
| Part number 115 V/60 Hz                   | 9471410                       |
| 230 V/50 Hz                               | 9470410                       |
| Max. flow                                 | 185 ml/min                    |
| Max. continuous pressure height (flooded) | 7 m H₂O                       |
| Max. suction height (flooded)             | 3,5 m H₂O                     |
| Max. suction height (dry)                 | 2 m H <sub>2</sub> O          |
|   |                               |
| Electrical Data                           |                               |
| Motor type                                | Linear magnetic drive         |
| Nominal voltage                           | 115 V 60 Hz / 230 V 50 Hz     |
| Max. power consumption                    | 4,6 W                         |
| Protection class                          | IP00                          |
|   |                               |
| General Data                              |                               |
| Ambient temperature                       | 0 to 50°C                     |
| Media temperature                         | 0 to 50°C                     |
| Weight                                    | 0,14 kg                       |
|   |                               |
| Wetted Parts                              |                               |
| Pump chamber                              | PP                            |
| Nozzle plate                              | PBT                           |
| Diaphragm                                 | EPDM                          |
| Valve gasket                              | EPDM                          |

All listed values are average values and related to a Silicone tubing, OD 6,5 mm x ID 4,5 mm, Hardness Shore D 50. Tolerances depend on viscosity of media, temperature, position of pump/tubing.

The information presented in this material is based on technical data and test results of nominal units. It is believed to be accurate and reliable and is offered as an aid to help in the selection of Thomas products. It is the responsibility of the user to determine the suitability of the product for the intended use and the user assumes all risk and liability whatsoever in connection therewith. Thomas does not warrant, upurantee or assume any obligation or liability in connection with this information.
